Martina **Castellucci**

Product Specialist · Healthcare BI & Data Warehouse · MSc Bioinformatics

martycastellucci@gmail.com · LinkedIn · GitHub · martinaa1408.github.io

Product Specialist in healthcare business intelligence at Onit Analytics. I turn clinical and administrative data into Qlik Cloud dashboards, SQL models and KPIs that teams use every day. My bioinformatics background gives me a solid base in statistics, machine learning and reproducible data pipelines, which I applied in an end-to-end risk assessment system for a food safety laboratory. I work well between data and users: I understand what they need and explain results clearly.

EXPERIENCE

Product Specialist, BU DWHSANPRI — Oct 2026 – present
Onit S.p.A. · Onit Analytics · Cesena · professional apprenticeship

- Build and maintain Qlik Cloud dashboards for private-healthcare providers.
- Gather user information needs and translate KPI definitions into SQL queries.
- Dimensional modelling (DFM, ROLAP), ETL procedures and data unit tests.

Qlik Cloud · SQL · PostgreSQL · MySQL · HP Vertica · Pentaho · Power Query M

Bioinformatics Specialist, thesis internship — Feb 2026 – Jul 2026
Neotron S.p.A., Cotecna Group · Modena

- Built a decision support system for food contamination risk on 182,033 analyses and 122 contaminants.
- SQL extraction from the LIMS, data cleaning and statistical risk scoring of contaminant–food pairs.
- CatBoost risk model (PR-AUC 0.84; 95.5% recall on a 2026 blind test), Docker pipeline, dashboards and handover to the lab team.

Python · SQL Server · R · Docker · Git · Power BI

OTHER EXPERIENCE

Volunteer trainer, bioinformatics orientation — 2026 – 2027
Liceo "E. Ferrari" · Cesenatico · final-year students · online toolkit

Private tutor — Sep 2021 – present
Freelance · individual and group lessons for secondary-school students

Hostess & client relations — ongoing
Trade fairs and resort front desk · Italian and English · SIGEP 2026, Rimini

Babysitter & summer homework support — Jul 2020 – Sep 2025
Freelance and Marepineta Resort · Milano Marittima

EDUCATION

MSc in Bioinformatics · 110/110 cum laude — 2024 – 2026
University of Bologna · taught in English
Thesis: *A One Health Decision Support System for the Assessment and Prediction of Food Contamination Risk*

BSc in Biotechnology · 110/110 cum laude — 2021 – 2024
University of Bologna
Thesis internship in physiology: histology and RNA-seq.

Scientific high school diploma · 100/100 — 2015 – 2020
Liceo Scientifico "E. Ferrari" · Cesenatico

LANGUAGES

Italian	native
English	professional

INTERESTS

HYROX, running, trekking, travel

TECHNICAL SKILLS

BI & DATA WAREHOUSING
Qlik Cloud · SQL · Power BI · DFM · ROLAP · ETL

DATABASES
PostgreSQL · MySQL · HP Vertica · SQL Server

PROGRAMMING
Python · R · Bash · Git · Docker · Nextflow

DATA SCIENCE & BIOINFORMATICS
Statistics · Machine learning · CatBoost · RNA-seq · Pathway analysis

SOFT SKILLS

Technical communication
Data and models explained to lab staff, clients, students

Client relations
Trade fairs and front desk, in Italian and English

Teaching and mentoring
Five years of tutoring, school orientation talks

Autonomy and ownership
Built and handed over a full data pipeline

CERTIFICATIONS

Machine Learning Specialization
DeepLearning.AI & Stanford · 2026

Foundations of Data Science
Google · 2026

Introduction to KPIs
Coursera · 2026

Navigating U.S. Food Regulations
Univ. of Illinois · 2026

Nextflow Training Week
Seqera
